

MGFWS Reorganization Plan

The state board will be reorganized to include more representation from local foundations. We encourage at least two, and possibly three representatives from each county. All effort will be made to get regular representation from every local Master Gardener group.

Board leadership will cover three broad areas of responsibility:

- Administration
- Fundraising
- Conference

Each of these areas will overlap the other two, with shared duties and responsibilities.

The President, Executive Vice President and immediate Past President have leadership roles in all three areas.

Administration – These leaders will see to the functions of the board, meetings, funds, maintenance of records, recruitment of members, etc.

- Membership Chair
- Financial Officer
- Secretary
- Historian

Fundraising – Sub committees in this area will perform duties necessary to grow our endowment, solicit grants for conference and other activities, and plan events related to same.

Conference – There are two officers at the Vice President level. They are listed as Conference Director and Co-Director. They will form and oversee sub-committees to perform the necessary planning and operation of the annual conference event.
